

Tip-on-Cards (TOC)

card format	148 x 105 mm (+/-1 mm), The format corresponds to the classic postcard format A6.		
surface finish	no reflective cards		
surface sealing	Finishing with Dispolack can have a positive effect on parameters such as electrostatic adhesion and deflection.		
paper thickness	min. 200 g/m ² , max. 300 g/m ²		
placement options	For the Vienna and Lower Austria editions	For the edition Upper Austria	
	 bottom left, up or down possible	 lower left, slightly indented only high possible	
air permeability	not allowed		
deflection	max. 20 mm (see sketch A) Excessive deflection restricts or prevents automated attachment of the card. The sketch on the right shows a simple test for the determine deflection.		
paper grain direction	necessarily lengthwise! Processing at right angles to the grain of the paper increases the deflection enormously.		
General nature of the TOC	<ul style="list-style-type: none"> ■ The cards must not stick together; neither by ink, electrostatic charge, stamping or through perforations. ■ Dimensional accuracy must be guaranteed over the entire run. ■ The cards must not have any bent corners, edges or creases. ■ The cards must be cut at right angles and in the same format. ■ Deformed cards cannot be processed (see sketch B). 		
Packaging and transport	<ul style="list-style-type: none"> ■ Use the pallet slips specially provided for the delivery of your TOC. ■ Flattened on pallet, do not use separator sheets! Pallet wrapped and provided with edge protection; Delivery has to be planed. ■ The pallet notes require the following information to be filled out carefully: <ul style="list-style-type: none"> - Customer/Product Name - Release date of the TOC - Quantity of the provided products - Pallet number numbered - number of pieces per pallet ■ Print out the completed pallet slips, fold them along the perforated line and use them to label the pallet on both sides. ■ Please deliver your TOC products sorted and with an allowance of 5,000 pieces. Residual quantities are disposed of immediately after the end of the order. When using the same TOC for follow-up orders, we ask you to deliver the TOC separately. ■ The products must be handily intertwined and not bundled. ■ The information on the delivery note must correspond to that on the pallet slip. ■ Please forward these requirements to your suppliers!
